DR. GARY GLASSMAN

Dr. Gary Glassman graduated from the University of Toronto, Faculty of Dentistry in 1984 and was awarded the James B. Willmott Scholarship, the Mosby Scholarship and the George Hare Endodontic Scholarship for proficiency in Endodontics. A graduate of the Endodontology Program at Temple University in 1987, he received the Louis I. Grossman Study Club Award for academic and clinical proficiency in Endodontics.

The author of numerous publications, Dr. Glassman lectures globally on endodontics, is on staff at the University of Toronto, Faculty of Dentistry in the graduate department of endodontics. As Adjunct Professor of Dentistry and Director of Endodontic Programming from 2010-2017, Gary helped develop the dental school curriculum for the Oral Health Science programme for the University of Technology, Kingston, Jamaica.

Gary is a fellow of the Royal College of Dentists of Canada, Fellow of the American College of Dentists, endodontic editor for Oral Health dental journal, endodontic editor for Inside Dentistry, Faculty Chair for DC Institute and Chief Dental Officer for dentalcorp Canada.

He maintains a private practice, Endodontic Specialists in Toronto, Ontario, Canada.

DR. MAZEN DAGHER

Dr. Mazen Dagher is the founder and chief education officer of Dagher Institute, a learning center for professionals who wish to advance their skills in implant dentistry, prosthodontics, endodontics and periodontal surgery. Always at the forefront of his profession, Dr Dagher is regularly invited to give various courses and conferences across Canada and the United States. He also founded the Hawkesbury Dental Centre in 1999, a top tier group practice.

Dr. Dagher has since acquired a high level of expertise in implantology from some of the most prestigious schools worldwide which includes the Kois Center for Advanced Dentistry (Washington), the Canadian Implant Institute, the Misch Implant Institute (Michigan) and the Sapo-Implant Institute of the University Paul IV in Paris.

His practice is focused on implant dentistry and complete functional rehabilitation. He is also the founder of Chapter2Dental, a new generation of fully interactive education platform for patients and dental staff.

COURSE OUTLINE

ENDO COURSE

This advanced endodontic program provides in-depth knowledge and skills in endodontics, focusing on advanced techniques and procedures. It is ideal for dentists with a strong foundation in endodontics who want to enhance their expertise.

Participants will learn advanced diagnostic and treatment planning techniques, as well as the latest advancements in endodontic materials and technologies. Topics include advanced root canal treatment, retreatment of failed cases, surgical endodontics, management of complex cases, calcified canal negotiation, ledges, obstructions, sharp curvatures, and regenerative endodontics.

The program includes theoretical lectures, hands-on workshops, and clinical training, offering practical experience and skill development.

RESTORATIVE COURSE

Participants will learn to plan prosthodontic treatments for endodontically treated teeth, focusing on optimal function and aesthetics.

The course covers guidelines for selecting appropriate restorations, critical occlusion concepts, preparation, impression techniques, temporization, and lab communication. It also compares digital scanning technologies with traditional VPS impressions.

The course includes extensive hands-on practice, ensuring participants gain confidence and proficiency in handling complex single tooth prosthodontic scenarios.

- ✓ Navigate Around Curved Canals and Blockages
- ✓ Treat Calcified Canals
- ✓ Find and Treat MB2
- ✓ Post Removal and Retreatment Techniques
- ✓ Anterior Apical Surgery

- ✓ Plan Prosthodontic Treatments for Endodontically Treated Teeth
- ✓ Learn Critical Occlusion Concepts
- ✓ Advanced Temporization Techniques
- ✓ Post and Core Quick and Efficient Techniques
